PROFESSIONAL ENGINEERING SERVICES

PMO 360™

PMO 360™ is Castillo's proprietary project management dashboard designed according to gold-standard PMP® principles and created for the speed and complexity of utility-scale solar. This portal gives our clients complete visibility into project statuses, timelines, expected delivery dates, pending actions, and more. EPCs and developers get a 360-degree view of the project and instant access to the metrics that matter.

Services offered:

- PV Array Design & Optimization
- Development Engineering
- Electrical Engineering
- Civil Engineering
- Substation Design
- Structural Engineering
- Power System Studies
- Battery Storage Design
- Construction Support
